December 12, 2019

To the dean of the Faculty of Electrical Engineering, Mathematics and Computer Science (EEMCS)

Prof. dr. J.N. Kok

Subject: *Motivation letter to stay as a guest at University of Twente*

Dear Prof. dr. Joost,

On the 1st of October 2019, I resigned from my position as Assistant Professor at the University of Twente. On the 1st of December, I started a new job at Northwave BV as Cloud Security Leader. In the period in between these both events, I discussed with prof. Aiko Pras the possibility to stay at the University as a guest. His positive answers bring me to this letter.

This is my formal letter stating that I want and that I have the allowance from Northwave BV to stay one day a week as guest at our University of Twente. My motivation is to keep inspiring young researchers to build a more digitally secure society.

Yours faithfully,
