Professional Objective

I am currently a PhD candidate at University of Twente with a postdoctoral contract starting right after achieve the Doctor degree (*march 2017). My research is founded by the European commission and by the Dutch national Organisation for Scientific Research (NWO). Some results of my research already achieved recognition in the national and international level; for example, I had the opportunity to advise the Japanese Ministry of Internal Affairs and Communications and the Dutch National Cyber Security Center both on the topic of cyber security.

My professional objective is to become a recognized researcher and teacher in network management and security. On top of that I am eager to make my name and the name of the academic institution that I am part of as a worldwide reference in cyber security. I aim to transfer my enthusiasm, knowledge, skills and experience into meaningful innovation to improve the security in all types of networks, specially in the Internet.

Education

2013–mar/2017* Doctor in Computer Science — University of Twente, The Netherlands
"The DDoS as a $ervice Phenomenon".
Supervisor: Prof. Dr. Ir. Aiko Pras
This ongoing work has being used by both the security community and by network operators. One of the outcomes that stands out is publicly available at 'booterblacklist.com' and was already downloaded by more than four hundred users worldwide.

2010–2012 Master in Computer Science — Federal University of Rio Grande do Sul, Brazil
"A BPM-based Solution for Inter-domain Circuit Management".
Supervisor: Prof. Dr. Lisandro Zambenedetti Granville
The outcome of this work is still in production used by the Brazilian National Education and Research Network and available at 'meican.cipo.rnp.br'.

2005–2010 Bachelor in Computer Engineer — Federal University of Pará, Brazil
"A Comparative Evaluation of DCCP Protocol in Mesh Networks."
Supervisor: Dr. Kelvin Lopes Dias

Experience

Technical Adviser

2016 To the Yokohama National University — Japan
For the production of a report on "Reflection & Amplification DDoS attacks" requested by the *Japanese Ministry of Internal Affairs and Communications*.

2016 To the Dutch National Cyber Security Center and the Scientific Research & Documentation Center — The Netherlands
For the production of a report on "Cyber metrics 2016: DDoS and Malware" requested by the *Dutch Ministry of Security and Justice*.

Assistant Professor

2012–2013 University of Santa Cruz do Sul (UNISC) — Santa Cruz do Sul, Brazil
Tasks & Responsibilities: Supervise students and teach (integrally) the courses: *Digital Systems, Computer Networks, and Network Management*.

Guest Lecturer

All my slides are available at slideshare.net/jjcsantanna; some interactive exercises are available at github.com/jjsantanna/lectures_hands_on; and, most important, there is some voluntary judgment and testimonies of students available at bit.ly/presentation_evaluation.

2016   **Network Management**   University of Twente, The Netherlands
Lectures: (1) " SNMPv1, v2, v3 and Beyond" and (2) "Network management based on WebServices"
Audience: master students of computer science, electrical engineer, and telematics from the University of Twente.

2015 & 2016 **Product Design to Online Business**   University of Twente, The Netherlands
Lectures: (1) "Booters: the DDoS-as-a-Service phenomenon" and (2) "Product Design to Online Business"
Audience: bachelor students of industrial engineering and business information technology.

2015   **Network Security**   University of Twente, The Netherlands
Lecture: "DDoS attacks into the Matrix"
Audience: master and bachelor students of computer science, electrical engineer, and telematics from the University of Twente, 3TU cyber security, and members of ICT labs.

2015   **Cybercrime & Cybersecurity (minor)**   University of Twente, The Netherlands
Lecture: Audience: bachelor students from University of Twente, European Research Center for Information (ERCIS), Westfälische Wilhelms - Univerität Münster, Universität Innsbruck, and University of Leicester.

Student Supervisor

Among 10 supervised students: 5 had their research published in international academic conferences, 5 decided to follow towards the next academic degree [*],i.e., Ph.D. or M.Sc., 2 received the M.Sc. degree cum laude [+], 1 won the best paper award in an international conference [#], and 1 won the second place of a renowned Dutch national prize (KIVI/Defensie & Veiligheid) for her thesis [!].

[**M.Sc. Degree**]Justyna Chromik[*,+,!] , Wouter de Vries[*,#], Joey de Vries[+], Mark Wierbosch, and Jarmo van Lenthe.

[**B.Sc. Degree**]Roeland Krak[*], Max Kerkers[*], Dirk Maan[*], Jochum Börger, and Guilherme Dressler.

Besides those students I also supervised: two groups of students from University of Twente and University of Münster in the "Cyber Attacks and Cyber Security" (minor); a group of 5 students in a "Design Project"; and 1 student in the "Crossing borders program".

Journal and Conference Reviewer

Among more than 20 venues acting as a reviewer I highlight bellow only the top well ranked conferences by the Committee on Network Operation and Management (CNOM), part of the IEEE Communications Society. For each conference I added the most recent ratio between the number of submitted papers divided by published (acceptance ratio) and their current h-index. You can find my entire list of journals and conference that I was reviewer at 'jairsantanna.com/reviews'.

COMCOM	**Computer Communications**	2.099 | 49
CNSM	**International Conference on Network and Service Management**	17.6% | 18
NETWORKING	**IFIP Networking**	23.8% | 22
IM	**IFIP/IEEE Integrated Management**	27.2% | 18
NOMS	**IEEE/IFIP Network Operations and Management Symposium**	28.9% | 22

Conference Organizer

2016	**Shadow Technical Program Committee (TPC)**	CNSM

IFIP/IEEE International Conference on Network and Service Management is the premier conference in the area of network and service management. A shadow TPC is an experimental initiative for PhDs become better TPCs in the future. My reviews have the same weight as the actual TPC reviews.

2013-2016	**Technical Program Committee (TPC)**	ERRC

Escola Regional de Redes de Computadores (pt_br), a conference for undergrad students from the south of Brazil. To motivate students to

2012	**Local Organizing Committee**	LatinCloud

IEEE Latin American Conference on Cloud Computing and Communications.

2010	**Local Organizing Committee**	SBRC

The Brazilian Symposium on Computer Networks and Distributed Systems.

Presentations

In the last 3 years I gave more than 30 presentations, which is almost one per month. Most of the presentations are available at 'slideshare.net/jjcsantanna'. Among invited presentations, presentations that required abstract and presentations approved after a very strict peer-reviewing process (conferences) I highlight the following.

Invited	To Logius (part of the Dutch Ministry of Interior and Kingdom Relations)	2015
Invited	To the Dutch Organization of Internet Providers (NBIP)	2015
Invited	To the Dutch National Cyber Security Centrum (NCSC)	2015
Abstract	36th IRTF Network Management Research Group (NMRG)	2015
Abstract	31th IRTF Network Management Research Group (NMRG)	2013

Rewards & Awards

2016	**Invited to the Dagstuhl Seminar 16361**	on Network Attack Detection and Defense
2015	**Invited to the Dagstuhl Seminar 16012**	on Global Measurements
2015	**Best Ph.D. 'Elevator Pitch' (1st Place)**	CTIT Symposium, University of Twente
2015	**Best Poster (3rd Place)**	CTIT Symposium, University of Twente
2015	**Best Paper Award**	Autonomous Infrastructure, Management and Security Conference
2015	**Top Papers**	Brazilian Symposium on Computer Networks and Distributed Systems
2010	**Student Award (3rd Place)**	Computer Engineer, Federal University of Pará, Brazil

Scientific Appendix

Publications

DDoS 3.0 - How Terrorists Bring Down the Internet
Aiko Pras, José Jair Santanna, Jessica Steinberger, Anna Sperotto
International GI/ITG Conference, MMB & DFT (invited), 2016

Ludo – kids playing Distributed Denial of Service
Jessica Steinberger, José Jair Santanna, Evangelos Spatharas, Hendrik Amler, Niklas Breuer, Kristian Graul, Benjamin Kuhnert, Ulrike Piontek, Anna Sperotto, Harald Baier, Aiko Pras
TERENA Networking Conference (TNC) (invited), 2016

Booter websites characterization: Towards a list of threats
Justyna Joanna Chromik, José Jair Santanna, Anna Sperotto, Aiko Pras
Brazilian Symposium on Computer Networks and Distributed Systems (SBRC)[acceptance 30%], 2015

Inside Booters: An Analysis on Operational Databases
José Jair Santanna, Romain Durban, Anna Sperotto, Aiko Pras
IFIP/IEEE International Symposium on Integrated Network Management (IM)[acceptance 27.2%], 2015

Booters - An Analysis of DDoS-as-a-Service Attacks.
José Jair Santanna, Roland Rijswijk-Deij, Anna Sperotto, Rick Hofstede, Mark Wierbosch, Lisandro Zambenedetti Granville, Aiko Pras
IFIP/IEEE International Symposium on Integrated Network Management (IM)[acceptance 27.2%], 2015

How Asymmetric Is the Internet? A Study to Support the Use of Traceroute
Wouter Vries, José Jair Santanna, Anna Sperotto, Aiko Pras
International Conference on Autonomous Infrastructure, Management and Security (AIMS)[acceptance 31.8%], 2015

Characterisation of the Kelihos.B Botnet
Max Kerkers, José Jair Santanna, Anna Sperotto
International Conference on Autonomous Infrastructure, Management and Security (AIMS)[acceptance 31%], 2014

Towards Validation of the Internet Census 2012
Dirk Maan, José Jair Santanna, Anna Sperotto, Pieter-Tjerk Boer
EUNICE/IFIP International Workshop (EUNICE)[acceptance 47.9%], 2014

Characterizing and Mitigating The DDoS-as-a-Service Phenomenon
José Jair Santanna, Anna Sperotto
International Conference on Autonomous Infrastructure, Management and Security (AIMS)[acceptance 31%], 2014

Through the Internet of Things - A Management by Delegation Smart Object Aware System (MbDSAS)
Marcelo Marotta, Felipe Carbone, José Jair Santanna, Liane Tarouco
IEEE Computer Software and Applications Conference (COMPSAC)[acceptance 17%], 2013

Redes de Rádios Cognitivos: Arquiteturas, Sensoriamento Espectral e Questões Regulatórias.
Rafael Kunst, Cristiano Both, Lucas Bondan, Maicon Kist, José Jair Santanna, Leonardo Faganello, Lisandro Granville, Juergen Rochol
Simpósio Brasileiro de Telecomunicações (SBrT)[acceptance 18%]. 2012

A BPM-based solution for inter-domain circuit management
José Jair Santanna, Juliano Wickboldt, Lisandro Zambenedetti Granville
IEEE Network Operations and Management Symposium (NOMS)[acceptance 26.2%], 2012

Internet of Things in healthcare: Interoperatibility and security issues
Liane Tarouco, Leandro Bertholdo, Lisandro Zambenedetti Granville, Lucas Arbiza, Marcelo Marotta, José Jair Santanna
IEEE International Conference on Communications (ICC)[acceptance 37%], 2012
